6	08-04-2020	3	<p>Feed back for online classes during Lockdown.</p> <p>We are very grateful and thanks to APS school team to take decision for children, making teaching and learning more convenient.</p> <p>A detailed weekly time table had been sent by the class teacher which helped the parents and students to do their work systematically. Class and section wise group are made where all subjects teachers come according to scheduled time table and teach the children with videos, audios and worksheets. It is very useful effective teaching classes for children to make them busy.</p>

9		3	<p>Hi Ma'am, Sending this message to thank all the teachers and the school management of APS Golconda for initiating online classes🙏.When I read the message about online classes I felt how dedicatedly the school management and teachers are working and thinking for the upbringing and development of the children. The teachers are taking extra effort for making child understand the subject through sharing animation videos, notes, worksheets, personal teaching videos etc. Kudos and you deserve👏👏👏👏👏During this pandemic, starting online classes are really helpful. They are keeping the students busy the whole day and even as parents we are knowing the methodologies each and every subject teacher is following. Going forward, once the school starts we will know how teacher is teaching, seeing their books and we can revise them in the similar manner. Students are happy too to see the different animation videos shared by the teachers which is making them grasp topics more easier(in normal classes they are missing this videos) and thanks to Extramarks app.It would be great if you can keep sharing related videos for the topics taught in school even once the school starts. Once again I congratulate and thank the management for taking this initiative and the teachers for their continuous effort for giving more than 100% and making the foundation strong for the next generation to be ready. We as parents we owe a lot to you all and will make sure we will support you in all the ways needed.Thank You</p>
10		5	<p>Yes ma'am..it's very intresting..and my kid also very interesting</p>

			to do work...like watching videos..and doing home work...we are happy and thank u all the teachers and principal ..for such a nice idea...
11		3	Dear ma'am, the work done as CW is super. It's like children are not missing a thing despite of being at home. But 1 small request, since they are small, they need full guidance and still want to do all work on their own. Every cw done is also h.w. .. So if teachers either reduce the cw or Hw. As its taking more of parents time than kids. As mothers we have both our hands full. So managing everything is becoming a task. It's a suggestion. If this can be considered...
12		3	Ma'am the online classes It's very good and we are so happy to see your dedication towards the children study in the present situation Thank u so much mam for your efforts. Really we are happy maam..

16	03-04-2020	5	An excellent approach by teachers of APS golconda in dealing with the chronic isolation of children during this pandemic's lockdown. The online classes through whatsapp is a wonderful way to keep the ciriculam going and keeping the children engaged. The learning by this means has brought more of an

They appreciated our school's initiative. Thank you mam
21		2	Lessons may be shared with all one day in advance. This will generate more flexibility in kids to understand the concept. Great effort all the very best.
